Apriamo le porte con stile  
*We open doors in style*

La differenza tra una maniglia ed un semplice pezzo di ottone nasce nel 1986, quando lanciammo i nostri prodotti seguendo l'idea della funzionalità abbinata al design.

Perché il design senz'anima lo abbiamo provato tutti ed è scomodo, tanto quanto la brutta funzionalità.

Abbiamo quindi scelto di realizzare quelle maniglie che noi stessi metteremmo a casa nostra, maniglie che resistano a tutto: usura, urti, tempo, grazie ad innovative tecniche di fissaggio e di protezione, come la finitura PVD Zirconium Protection.

Al contempo, le abbiamo volute belle, molto belle, come ogni vero accessorio che si rispetti.

E alla fine, visto che volevamo il meglio, ci siamo impegnati a far sì che ogni maniglia venisse concepita e realizzata esclusivamente in Italia, rispettando pienamente i requisiti di legge previsti dalle normative europee.

A questo punto, provate ad immaginare la maniglia perfetta per la vostra abitazione o per il vostro ufficio: probabilmente la troverete qui.

*The difference between a handle and a simple piece of brass arose in 1986, when we launched our products that combined both functionality and design.*

*We've all tried design without a soul and it's awkward, just like brute functionality.*

*We therefore chose to create handles that we ourselves would choose for our own house, handles that resist everything: wear, blows, time, thanks to innovative fixing and protection techniques such as the Zirconium Protection finish - PVD.*

*At the same time, we wanted our handles to be attractive, like all accessories should be.*

*And finally, because we wanted the best, we committed ourselves to ensuring that every handle was designed and created exclusively in Italy, in full compliance with the legislative requirements of European standards.*

*And now, try and image the ideal handle for your house or office: the chances are you'll find it here.*

# azienda / *factory*

Nel futuro probabilmente le porte  
si apriranno con il pensiero...

fino ad allora, però, sogneranno  
sempre una maniglia Linea Calì.

## Produciamo maniglie di alta qualità, e lo facciamo solo in Italia.

Siamo orgogliosi di garantire ai clienti la produzione italiana di tutti i nostri prodotti nel rispetto delle più recenti normative Europee in tema di qualità delle materie prime utilizzate, caratteristiche tecniche e resistenza dei trattamenti protettivi delle superfici (rif. UNI EN ISO 9227).

A riprova di ciò su ogni articolo che commercializziamo stampiamo un marchio di riconoscimento che ne attesta l'autenticità, garantendo così al cliente l'acquisto di una maniglia di alta qualità interamente prodotta in Italia.

Garantiamo inoltre 10 anni i prodotti con finiture cromo lucido o cromo satinato, e 20 anni se trattati con il trattamento Zirconium Protection (PVD), adatto dove è richiesta una resistenza particolare a causa di difficili situazioni climatiche come salsedine, alta umidità o situazioni di impiego usuranti.

*We are proud that we can guarantee our customers products that are manufactured entirely in Italy, in compliance with the most recent European standards on the quality of the raw materials used, the technical characteristics and the resistance of surface treatments (ref. UNI EN ISO 9227).*

*As evidence thereof, we mark each and every item that we sell, certifying its authenticity, thus guaranteeing the customer a high quality handle produced entirely in Italy.*

*Furthermore, all our products with a polished chrome or satin chrome finish are covered by a 10 year guarantee and by a 20 year guarantee if treated with a physical vapour deposition (PVD) using Zirconium Protection, a coating that is ideal whenever a particularly high resistance is required due to difficult climatic situations such as high salt content or humidity in the air or situations of high wear and tear.*
